

Incontinence-Associated Dermatitis (IAD)

Target Audience

This activity is designed to meet the educational needs of nurses caring for incontinent patients.

Learning Objectives

Upon completion of the educational activity, participants should be able to:

1. Define incontinence-associated dermatitis (IAD)
2. Identify assessment and intervention tools that may assist healthcare professionals in identifying and managing IAD.
3. Review evidence-based protocols of care for prevention and management of IAD.
4. Differentiate IAD from pressure ulcers.

Criteria For Success

Statements of credit will be awarded based on the learner's participation, successful completion of activity post-test at 70% or higher and submission of the activity evaluation form at the conclusion of this activity. A statement of credit will be available for print directly upon completion. If you have questions about this CE activity, please contact AKH Inc. at service@akhealthcare.com.

Disclosures

It is the policy of AKH Inc. to ensure independence, balance, objectivity, scientific rigor, and integrity in all of its continuing education activities. The author must disclose to the participants any significant relationships with commercial interests whose products or devices may be mentioned in the activity or with the commercial supporter of this continuing education activity. Identified conflicts of interest are resolved by AKH prior to accreditation of the activity and may include any of or combination of the following: attestation to non-commercial content; notification of independent and certified CME/CE expectations; referral to National Author Initiative training; restriction of topic area or content; restriction to discussion of science only; amendment of content to eliminate discussion of device or technique; use of other author for discussion of recommendations; independent review against criteria ensuring evidence support recommendation; moderator review; and peer review.

Disclosure of Unlabeled Use and Investigational Product

This educational activity may include discussion of uses of agents that are investigational and/or unapproved by the FDA. Please refer to the official prescribing information for each product for discussion of approved indications, contraindications, and warnings.

Disclaimer

This course is designed solely to provide the healthcare professional with information to assist in his/her practice and professional development and is not to be considered a diagnostic tool to replace professional advice or treatment. The course serves as a general guide to the healthcare professional, and therefore, cannot be considered as giving legal, nursing, medical, or other professional advice in specific cases. AKH Inc. specifically disclaim responsibility for any adverse consequences resulting directly or indirectly from information in the course, for undetected error, or through participant's misunderstanding of the content.
